

How to Electronically Sign PDF- System Generated Signature

- Open the PDF document and click “Enable All Features” on the top right corner

Protected View: This file originated from a potentially unsafe location, and most features have been disabled to avoid potential security risks.

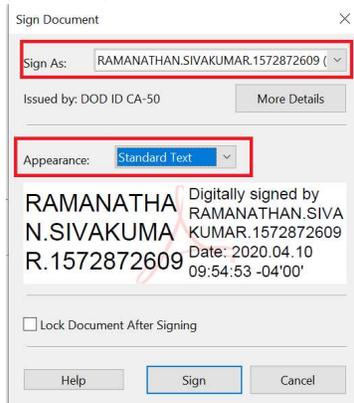

Enable All Features

- Click on the Signature area

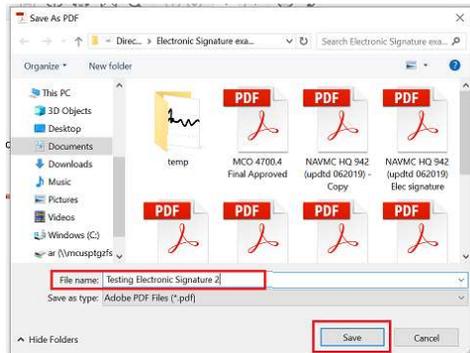

Signature

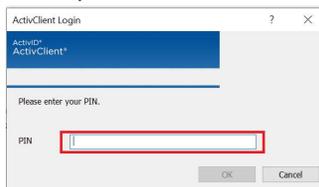

- Select the signature from the “Sign As” drop-down. Under Appearance choose “Standard Text” for System generated signature. Refer to document “Electronic Pen Signature” if you want to use Pen signature. Click Sign. **Do not** check “Lock Document after Signing”. ARDE will lock the document prior to publication.

- Save the pdf with a new file name or you can overwrite existing file

- Enter pin and Click ok

- The document is now electronically signed (System Generated OR Pen Signature)
