The Security Programs and Information Management Branch (ARS) provides Information, Personnel, Physical and Communications Security services in support of HQMC Staff Agencies. These services also include security related training for all Marines/ Civilian Marines and contractors assigned to HQMC. The purpose of this Layman's guide is to familiarize you with some of the more common areas of the HQMC Security Program that affect the operation of your Staff Agency, department, or activity on a daily basis. Within this guide is the new Security Services Form. This form should be used to request most of the security related services found in this guide. However, as always we will respond to urgent request by any available media. The Security Services Form also contains a customer satisfaction rating and comments section, to let us know what we are doing and how we can do it better. Although not all encompassing, we feel you will have a better understanding of how to receive security related services and support. We encourage your comments and recommendations to assist us in better serving you.
