CDC POLICY MEMORANDUM 1.4B

Subj: DEFENSE SERVICES ORGANIZATION INSPECTION PROGRAM

Ref: (a) MCO 5800.16 (LSAM)  
(b) Article 6, UCMJ  
(c) JAGINST 5803.1E

Encl: (1) LSSS DSO Inspection Checklist  
(2) LSST DSO Inspection Checklist  
(3) Attorney Advisor Inspection Checklist  
(4) Reserve Matters Checklist

1. Purpose. To update the Marine Corps Defense Services Organization (DSO) inspection program to include a separate inspection of the Reserve Matters section, update the checklists for branch offices and Attorney Advisors, and provide for yearly reporting on the state of the DSO from the Chief Defense Counsel of the Marine Corps (CDC) to the Staff Judge Advocate to the Commandant of the Marine Corps (SJA to CMC). These revisions are in support of policies and procedures established by the SJA to CMC in reference (a) while continuing to maintain operation of the DSO as a functionally independent organization.

2. Discussion

a. Per reference (a), the SJA to CMC has designated the CDC as the Officer-in-Charge (OIC) of the DSO. This includes exercising functional, day-to-day supervision over personnel assigned to the DSO. As the OIC of the DSO, the CDC is directly responsible to the SJA to CMC for supervision of all Marine defense personnel and the delivery of defense counsel services throughout the Marine Corps.

b. To accomplish this supervisory function, reference (a) tasks the OIC of the DSO with: (1) establishing standard operating procedures and standards of practice for the delivery of defense services throughout the Marine Corps; (2) establishing policies and procedures to ensure that the internal organization structure of the DSO best facilitates the accomplishment of the

Subj: DEFENSE SERVICES ORGANIZATION INSPECTION PROGRAM

DSO mission; (3) establishing policies to provide proper mentorship and training for all officer and enlisted DSO members; (4) assessing the practices, procedures, and techniques of both defense counsel and support personnel in the performance of defense functions; and (5) assessing the adequacy of facilities and assets provided to defense counsel.

c. To fulfill the SJA to CMC's supervisory function over the administration of military justice, the SJA to CMC has directed the OIC of the DSO to conduct, at a minimum, one site inspection at each Legal Services Support Section (LSSS) and subordinate Legal Services Support Team<sup>1</sup> (LSST) annually. See Reference (b). The inspection must include an assessment of "the availability of funds, training, opportunities, resources and personnel within each LSSS." Reference (a).

d. This policy promulgates the standard operating procedures and standards of practice for the execution of the DSO inspection program. The policy facilitates the OIC's supervisory function of the DSO, ensuring that the DSO remains functionally independent. It also supports the SJA to CMC in making "frequent inspections in the field in supervision of the administration of military justice," as required by reference (b).

### 3. Policy

a. The DSO inspection program will be robust, transparent, and regular.

b. To maintain functional independence, inspections of DSO offices will only be executed by DSO personnel in accordance with rules outlined in reference (c).

c. Each DSO regional office and LSST DSO office will be inspected annually by the Office of the CDC.

d. To ensure that there are not gaps in the timing of inspections, the DSO annual inspections will typically be

---

<sup>1</sup> The regional spaces at the LSSSs and each LSST DSO office will be inspected. The checklist will be reviewed by the RDC for regional issues, SDCs for LSSTs with an SDC, and senior Marine for LSSTs that do not have a local SDC. A new addition to this policy is the separate inspection checklist for Reserve Matters (RM), an inspection in conjunction with the SDC-RM.

Subj: DEFENSE SERVICES ORGANIZATION INSPECTION PROGRAM

conducted in conjunction with the HQMC scheduled Article 6 Legal Services Inspection (LSI). However, the CDC may direct an off-cycle inspection of any DSO office or region *sua sponte* or at the request of the SJA to CMC (or the SJA to CMC's designee) or any SJA, commander, or OIC of a LSSS or LSST.

e. The CDC usually travels with the SJA to CMC during Article 6 visits. Inspectors will travel to the inspection site in advance of the CDC, early enough to allow sufficient opportunity to prepare an after action report for endorsement by the CDC to the SJA to CMC, with copies to the relevant LSSS OIC and RDC, reporting the results of the inspection in a manner consistent with reference (c). This after action report shall not contain any privileged information.

f. Inspectors will usually be drawn from the Office of the CDC and/or Defense Counsel Assistance Program but may be augmented by members of the DSO selected by the CDC from a region other than the region being inspected. Inspectors are specifically cautioned not to review any case files from any conflict cases during the course of their inspection. Inspectors will use the enclosures, as appropriate.

g. Costs associated with execution of the inspection program are provided by the Office of the CDC (Judge Advocate Division) including travel and per diem of members of the DSO selected by the CDC from a region other than the region being inspected.

4. Because of, and in support of, the functional independence of the DSO, there is little formal reporting to the SJA to CMC on the DSO's initiatives, programs, training, and challenges. In addition to reports on the inspections, the CDC should report annually to the SJA to CMC to facilitate the SJA to CMC's support for initiatives and assistance in challenges facing the DSO. A mid-year review of the previous 12 months prepares Judge Advocate Division for personnel moves and FY budget and training issues. Like the inspections, the report shall contain no protected information.

Subj: DEFENSE SERVICES ORGANIZATION INSPECTION PROGRAM

5. Conclusion. CDC PM 1.4A is hereby canceled. This CDC Policy Memo is effective immediately.
