"(b)(6)" indicates information that could be exempt from disclosure under the Freedom of Information Act.
My name is Matthew Burke. I request a copy of the following documents [or documents containing the following information] be provided to me under the Freedom of Information Act:

1. During the Mayaguez Incident in May 1975, three Marines were left behind on Koh Tang island in Cambodia. Their names are as follows, Marine Pvt. Danny Marshall, Marine Pvt. 1st Class Gary Hall and Marine Lance Cpl. Joseph Hargrove. They were from Echo Co., 2-9. I previously requested their personnel files from NPRC. I was told the following: "The military record was loaned to the US Marine Corps and has not yet been returned to the National Personnel Records Center. We are forwarding your request to that agency." Then on a separate sheet it says Quantico advised that they have the record. I filed a request with the Marine Corps in Quantico in 2017 for these three personnel files, of Hargrove, Hall and Marshall. In 2018, Marine Corps FOIA coordinator for MCIC-NCR, MCB Quantico, instructed me to refile my request with Headquarters Marine Corps. I am doing so now.

I hereby request the three personnel files for Hargrove, Hall and Marshall. Though I have worked for various media outlets in the past, and have submitted numerous FOIA requests to the United States Marine Corps, I am submitting this particular FOIA request as a private citizen. This request is not affiliated with any previous or pending requests, nor should I be classified as a member of the media (unless authors count). Thank you very much for filling my request.

2020-002868 FOIA Simple Matthew Burke

I request a copy of the following documents [or documents containing the following information] be provided to me under the Freedom of Information Act:

1. During the Mayaguez Incident in May 1975, three Marines were left behind on Koh Tang island in Cambodia, Marine Pvt. Danny Marshall, Marine Pvt. 1st Class Gary Hall and Marine Lance Cpl. Joseph Hargrove. They were from Echo Co., 2-9. In 2017, I requested a Marine Corps investigative report that was drafted in the wake of their disappearance as well as any Marine Corps missing persons documents about the three Marines. In 2018, Marine Corps FOIA coordinator for MCIC-NCR, MCB Quantico, informed me she had checked with the training and education Cmd and could find no records. She suggested I might check with the "Archives Branch/History Division." So I am doing so now.

I hereby request the complete investigative report that was done on the three missing Marines, Hall, Hargrove and Marshall after their disappearance. It should be noted the National Archives has said they do not have the report. They referred me to the Marine Corps.

2. I am also requesting any other documents regarding the disappearance of these three men, search and rescue records, MIA/KIA records and reports, Cmd interviews and debriefings pertaining to them, sitreps, memos, any message traffic that mentions them, including any records on radio calls or SAR beeps or Guard calls after the battle, and any records reporting them being in captivity. Though it should not be limited to the aforementioned.

Though I have worked for various media outlets in the past, I am submitting this particular FOIA request as a private citizen of this request is not affiliated with any previous or pending requests, nor should I be classified as a member of the media. I request these files electronically first or by email.

Dear Administrator,

Dear FOIA Coordinator:

I would like to request the following documents:

Usage records of civilian airports in Japan by USMC aircraft (application forms and refueling records)

Thank you in advance for your anticipated cooperation in this matter and all your hard work in promoting transparency and accountability in the U.S.-Japan alliance. I look forward to receiving your response to this request within 20 business days, as the statute requires.

I am requesting a fee waiver (see below) and I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

I am making this request as a representative of the media who has written extensively about US military environmental issues in Japan. In your reply, please include the manner of your searches, when/where they were conducted and the results.

In recognition that the volume of emails generated by this request might be large, we are willing to accept the release on a staggered basis.

I would like to [inspect or obtain a copy of] the following public records:

According to literature by Silent Sounds, Inc., it is now possible, using supercomputers, to analyze human emotional EEG patterns and project them into the human auditory cortex to where no one else can hear the voices and human speech but that particular person. Based on the works of microwave hearing done by Dr. Allan Frey in the 1960â€™s and in the 2002-2003-2005. with the Waveband Corporation and the Sierra Nevada Corporation, with Dr. Lev Sadovnik.

Edward Tilton, President of Silent Sounds, Inc., says this about Squad in a letter dated December 13, 1996: 'All schematics, however, have been classified by the US Government and we are not allowed to reveal exact detail….â€  Any files relating to Silent Sounds, Inc., and the CEO Edward Tilton.

Silent hypnosis can be transmitted using a voice frequency modulator, the output appears to be a steady tone like tinnitus, but with hypnotic suggestions embedded. Pavlovian hypnotic triggers contain a phrase or sensory cue where the subject is programmed to involuntarily act in a certain way, also seen in MKUltra survivors. A patent for Silent Sound Spread Spectrum or S-quad was filed in 1992.

Edward Tilton.

I request a JAG ARTICLE 24.5.13 Hearing on President Donald John Trump Article II of the Constitution establishes the executive branch of the federal government. It vests the executive power of the United States in the president. The power includes the execution and enforcement of federal law, alongside the responsibility of appointing federal executive, diplomatic, regulatory and judicial officers, and concluding treaties with foreign powers with the advice and consent of the Senate. The president is further empowered to grant federal pardons and reprieves, and to convene and adjourn either or both houses of Congress under extraordinary circumstances.[16] The president directs the foreign and domestic policies of the United States, and takes an active role in promoting his policy priorities to members of Congress.[17] In addition, as part of the system of checks and balances, Article I, Section 7 of the Constitution gives the president the power to sign or veto federal legislation. The power of the presidency has grown substantially since its formation, as has the power of the federal government as a whole.[18] Through the Electoral College, registered voters indirectly elect the president and vice president to a four-year term. This is the only federal election in the United States which is not decided by popular vote. [19] Nine vice presidents became president by virtue of a president's intra-term death or resignation.[C] Article II, Section 1, Clause 5 sets three qualifications for holding the presidency: natural born U.S. citizen; at least thirty-five years of age; and residency in the United States for at least fourteen years. The Twenty-second Amendment states that no person who has been elected to two presidential terms may be elected to a third. In all, 44 individuals have served 45 presidencies spanning 57 full four-year terms.[20] Grover Cleveland served two non-consecutive terms, so he is counted twice, as both the 22nd and 24th President.[21]
I need all records including police, medical, living and discharge from Camp Pendleton.

Request all radar tracks and Air Traffic Control voice communications (Miramar ATC and FAA SoCal TRACON) of aircraft departing from MCAS Miramar, San Diego from November 4, 2019 to November 15, 2019. Request radar data in tabular form (lat/long/altitude/time by aircraft) or KML file. Request data limited to ~7-10 mile radius of MCAS Miramar where flights are over private property.

Note: This in no way is a national security issue. The information requested is for limited flight data of aircraft that were observed over a short period of time. All flights in and out of Miramar are plainly visible and audible. The entire airfield is visible from neighboring public streets as it is surrounded by businesses and residential areas. Furthermore, all departing flights travel over private property. All aircraft are supposed to be broadcasting openly, ADS-B on 1090 MHz. The information requested is not secret or hidden in any way and does not constitute enough data for an enemy of the state to piece together critical training information. Such training occurs in a specialized area in the Pacific Ocean or at other accessible military training facilities, not for the area requested.
Pursuant to the Federal Freedom of Information Act, 5 U.S.C. 552, I request a compilation of all Marine Corps Inspector General investigations in 2019 in which the subject was in the rank of 0-6 or above and at least one investigated allegation was substantiated. Please include with the each investigation any endorsements or included memos and any attached visual exhibits. Please release the investigations individually as they are prepared for release, rather than en masse. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information to promote senior leader accountability and performance and conduct and the DON holding them accountable for such behavior instills public confidence in the institution and is consistent with principles of open governance.

This is more than a personnel matter. To argue that my request is exempt from FOIA requests runs contrary to the Manual of the Judge Advocate General. The Department of the Navy has an obligation to ensure senior officials properly discharge their duties and responsibilities of government service, according to the JAGMAN. Public disclosure of significant departures by senior officials from expected standards of performance and conduct and the DON holding them accountable for such behavior instills public confidence in the institution and is consistent with principles of open government.

My request includes any documents, charge sheets, interviews, photographs, audio files, videos, endorsement letters and/or Cmd climate surveys. Please also include a summary of the investigation report. If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. I request that all segregable portions of otherwise exempt material be provided. Please contact me by email at gina.harkins@military.com or telephone at (847)302-9542 if I can clarify or expedite this request. Thank you for your assistance. Sincerely, Gina Harkins

2020-001208  FOIA  Simple  Christian Lambright  This is a request for records under the provisions of the Freedom of Information Act (5 U.S.C. 552) as amended including the E-FOIA amendments. Because I am unsure of what department or agency retains the records I am requesting, I ask that you forward a copy of this request to all locations that would have been in position to receive any of the material(s) detailed in the following paragraphs.

I am requesting records, paper-to-paper or in common digital format, that identify which F/A-18 'Hornet' aircraft was assigned to which pilot of the VMFA-232 "Red Devils" during the time period of November 13, 2004 through November 15, 2004.

If it helps to clarify my request: Information I have seen online indicates VMFA-232 was aboard the carrier 'Nimitz' during this time. Publicly available images indicate each aircraft was usually identified by a number printed prominently on the nose of the aircraft (possibly referred to as its "WT" number) and the pilot and callsign are also printed openly visible on the side of the aircraft by the cockpit. The information I am requesting is to help accurately identify which pilot and/or callsign was assigned to which aircraft during the time period above.

If any records responsive to my request originated with another agency and require review or handling by that agency, I request that I be informed appropriately of the agency(ies) involved and actions in this regard.

I also request that ANY and ALL partially releasable information be forwarded to the appropriate agency(ies) specified for review, if any, and that I be informed appropriately of actions in this regard. If my request is denied in whole or in part, I ask that you explain all deletions by reference to specific categories of exempted information, but as required by law, release any segregable portions that are left after the exempted material has been redacted. I also request that redactions be made using blackout not white-out.

Dear FOIA Officer:  
Under the federal Freedom of Information Act, 5 U.S.C. § 552 (the “FOIA”) I request as a reporter for National Public Radio, Inc. (NPR) that the DOD / U.S. Marine Corps make available to me for inspection and copying the following documents (which include electronic records) regarding to the USMC Inspector General report from October 2007 about friendly fire incidents. A Marine Corps Times article summarized the report in a February 2008 article (https://www.marinecorpstimes.com/article/20080218/NEWS/802180310/IG-Families-not-told-friendly-fire-cases/).  
As you know, the FOIA provides that if portions of a document are exempt from release, the remainder must be segregated and disclosed. Therefore, please send me all non-exempt portions of the records I have requested and justify any deletions by reference to specific exemptions of the FOIA. One of the issues raised in the recusal motion is the fact that “assumed information regarding prior training is relevant specifically to the question of whether Military Judge has received information through this position that would impact his ability to make an independent judgement on national security related issues such as the jurisdictional question of ‘hostilities’.”

It is evident that was required to remain apprised of terrorist activities and to ensure the Marines under his command received specific training on the threats posed by terrorist organizations. The scope of that training is relevant to the issue of judicial bias.

I request:

A National Security Investigation is being conducted on Ronald Lee McCool, III. A record check with the United States Marine Corps Provost Marshal's Office found that McCool was the suspect in two cases on the date 2012-08-30 and on the date 2012-11-06. I am requesting the reports for both of these incidents so we can learn the full details.
Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request copies of records related to following operations. Specifically, I'm requesting all combat narratives and after action report, including casualties of US and partner forces.

1. Jā An April 19, 2019 raid in Kubbaib in Kirkuk Province, Iraq, by a combined U.S./Iraqi force comprised of Iraqi Cmdos from the Counter Terrorism Services and US special forces (U.S. Navy SEALs or Marines). The Raid reportedly resulted in several Iraqi casualties and possibly injuries of US personnel and a translator.

2. Jā An August 10th, 2019 operation in Qanoos, Nineveh province, by a combined U.S./Iraqi force comprised of Iraqi Cmdos from Nineveh SWAT and U.S. Marines. As publicly reported, the raid claimed the life of Gunny Sgt. Scott Koenpfehl, in addition to at least one death of a US military contractor and several Iraqi soldiers.

3. Jā An early morning 24th April, 2019 operation in Dub al-Kabi village near Riyadh in Kirkuk province (it’s possible that the raid began late night of 23 April, 2019), by a combined U.S./Iraqi force comprised of Iraqi Cmdos from the Counterterrorism Forces and and U.S. special forces (exact force unknown).

I specifically request that you include so-called "non-responsive" material per the Court of Appeals for the District of Columbia Circuit in American Immigration Lawyers Association v. EOIR, 830 F.3d 667 (D.C. Cir. 2016) which found that FOIA does not provide for ... redacting non-exempt information within responsive records. As declared by the court, an agency identifies a record it deems responsive to a FOIA request, the statute compels disclosure of the responsive record "as is", as a unit, except insofar as the agency may redact information falling within a statutory exemption. **On September 13, 2019 the Navy Times published an article titled "Marines clear XO fired from the Navy's Gladiators." The article includes the following statements:**

"Instead, Friday’s announcement by the staff of Brig. Gen. Jason Morris was another blow to a Pentagon IG investigation that's been decried by dozens of military aviators as unfair and riddled with factual errors since its June 12 release, according to internal Navy and Marine Corps documents provided to Navy Times."

"Nesbit’s attorney, Timothy Parlatore, estimated that the lieutenant had filed or assisted in the filing of at least 11 IG complaints against the military while at VFA-106, according to a letter to Morris obtained by Navy Times."

"According to an internal dossier provided to Navy Times, eight Navy aviators submitted personal statements or other evidence to the Marine Corps in support of Nesbit, including VFA-106 operations officer Cmdr. Joel Caponigro; training model manager Cmdr. Mark Bair; former Cnoing officer Cmdr. Martin L. Weyenberg; and present Cmding officer Cmdr. Brandon M. Scott."

I request copies of the "Internal Navy and Marine Corps documents," the "letter to Morris," and the "internal dossier" referred to in the article, as well as any and all other related documents, emails, memorandums, or correspondence.

I am seeking copies of any and all communication, to include but not limited to emails, letters, memos and notes of phone conversations, between (sent to or received from) Marine Corps Base Camp Lejeune personnel and personnel with the Wilmington, NC Police Department (WPD). Time frame for the request is May 1, 2019 to present. For background information, the Wilmington Police Department is investigating several "assaults," which are reportedly sexual in nature, against men in downtown Wilmington. At least one of the assaults was reportedly against a Marine. Here is the information released by the WPD on Oct. 15:

"Wilmington Police are investigating a series of assaults that occurred in the downtown area near bar closing time. The investigation reveals that the assaults may have started several months ago. The crimes all involve males who were assaulted and some were robbed. Details are limited due to the condition of the victims at the time the incidents happened. Patrols have been increased downtown and detectives are actively investigating these crimes. Police want to remind individuals who choose to drink at public establishments to exercise caution, never drink and drive and don't leave bars alone. We are asking anyone with information about these assaults to please call the Wilmington Police Department at 910-343-3609 or use Text-a-Tip."

*Please note: (b)(6) refers to information that is protected by the Privacy Act Request.*
I would like to know the total number and percentage of USMC strike fighter aircraft that were mission capable by month, fiscal year or calendar year.

I'm looking into a claim that President Donald Trump recently made about the U.S. military's "jet fighters." He said, "When I came here, 50 percent of our jet fighters didn't fly. ... And they were in bad shape. And now we have the best fighters in the world. Everybody wants to buy them."

I'd like to be able to include in my article whether the number and percentage of USMC strike fighters that were mission capable before President Trump took office has increased, decreased or stayed the same during his administration.

So, I'm looking for the total number of strike fighter aircraft and the number and percentage that were mission capable over two years ago, as well as the total number of strike fighter aircraft and the number and percentage that are mission capable now.

It would be great if I could get the figures for January 2017 through September 2019. If that is not possible, whatever information you can provide would still be helpful. If there are breakdowns for each individual aircraft, that would also be helpful.

Please reference attachment.

Pursuant to the Freedom of Information Act (5 U.S.C. §552, et seq.), I request access to and copies of all congressional correspondence to or from any officials at the Marine Corps. and former Congressman Jason Lewis between January 1, 2017, and the date you receive this request.

Please search for responsive records regardless of format, medium, or physical characteristics. Where possible, please produce records electronically, in PDF or TIF format, via email or CD, particularly if providing the information reduces the time or expense involved. If your office cannot honor this preference, I am willing to discuss the most cost-effective and efficient means of duplication. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed $200. However, please notify me prior to your incurring any expenses in excess of that amount.

If any records are withheld or redacted, I request that you state the specific legal and factual grounds for withholding any documents or portions of documents. Please identify each document that falls within the scope of this request but is withheld from release and provide an index of those documents as required under Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1972). Please describe each document claimed as exempt including the consequences of supplying the sought-after information. If it is your determination that some portions of requested records are exempt, please disclose any reasonably segregable non-exempt portions of the requested records.

Information regarding the formation and utilization of the Kit Carson Scout during the Vietnam War. The program was also often referred to as Chieu-Hoi. It focused on using former Viet Cong combatants as intelligence scouts for American infantry units. The program was formed in the summer of 1966, originating with the 5th Counterintelligence team under Generals Herman Nickerson and Lewis W. Walt. I am interested only in documents regarding the origins of the program and its first year of operation from mid 1966 - mid 1967. First Scout placements were with the 1st and 9th Marine Regiments. I am particularly interested in Marine early involvement in the development of the Kit Carson Scouts program.

This is a duplicate request of DON-USMC-2019-002406. This duplicate request is being submitted because the response provided following remand were incomplete.

I request the "Job Opening" and "Manage Applicant" records for the nonappropriated fund job vacancy posting issued by MCCS, MCRD San Diego in early May 2016 for "Deputy Director MCCS NF5". The open date was 11 May 16 and the close date was 18 May 16. I specifically request the release of all information under the column titles of "Type", "Disposition", "Priority Pref", "Former Employee", "Application", "Resume", "Mark Reviewed", "Forward to Mgr", "Route", "Interview", and "Reject" that does not identify names, official titles, ranks, duty addresses, home addresses, telephone numbers, military quarters addresses, private email addresses, dates of birth, criminal histories, medical histories, social security numbers, or any other identifying information that implicates a personal privacy interest. If there are any questions regarding this request please contact me at DennisBuckovetz.

The initial response was dated January 7, 2019. That response provided a responsive record that includes applicant processing information under 17 column titles from left to right and in 32 rows of information from top to bottom.

On appeal the response was remanded for reconsideration on April 9, 2019. The updated response is incomplete when compared to the responsive record in the January 7, 2019, response. Specifically, the April 24, 2019, response includes a responsive document containing applicant processing information that identifies only 10 column titles from left to right and 25 rows of information from top to bottom.

Therefore in this request I seek the complete applicant processing record that includes 17 column titles from left to right and 32 rows of information from top to bottom and that is fully responsive to the April 9, 2019, remand.

2019-009511  FOIA  Simple  Dr. Nick Turse  The Nation Institute  Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request any Purple Heart applications concerning deaths/injuries sustained in Somalia from 2014 to the date that this request is finalized. I am specifically seeking: one-page narratives describing the qualifying incident and the conditions under which the Servicemember was injured or wounded; statements from at least two individuals other than the proposed recipient who were personally present, observed the incident, and have direct knowledge of the event; and/or casualty reports.

I request you search all electronic and paper-based records systems and databases for these materials and provide any/all of these records in electronic format if possible. I also request a cross-reference search.

I specifically request that you include so-called “non-responsive” material per the Court of Appeals for the District of Columbia Circuit in American Immigration Lawyers Association v. EOIR, 830 F.3d 667 (D.C. Cir. 2016) which found that FOIA â€œdoes not provide for . . . redacting non-exempt information within responsive records.â€ As declared by the court, â€œonce an agency identifies a record it deems responsive to a FOIA request, the statute compels disclosure of the responsive recordâ€”i.e., as a unitâ€”except insofar as the agency may redact information falling within a statutory exemption.â€

Also, under â€œFOIA Improvement Act of 2016â€œ each agency, in accordance with published rules, shall make available for public inspection in an electronic format . . . copies of all records, regardless of form or format . . . that have been requested 3 or more times.” This clause is within subsection (a)(2), which has no provision whatsoever for fees. The statute explicitly says “requested”, not “provided.” If my request is rejected, I will file two additional requests so that it will meet the requirements of the statute.

As a representative of the news media I am only required to pay for the direct cost of duplicating records.

Mr. Mohammad moved for Military Judge Parrella to recuse himself. Military Judge denied further discovery and declined to recuse himself.

One of the issues raised in the recusal motion is the fact that Col. assumed command of the Marine Corps Embassy Security Group... Information regarding prior training is relevant specifically to the question of whether Military Judge has received information through this position that would impact his ability to make an independent judgement on national security related issues such as the jurisdictional question of "hostilities." It is evident that was required to remain apprised of terrorist activities and to ensure the Marines under his command received specific training on the threats posed by terrorist organizations. The scope of that training is relevant to the issue of judicial bias.

- Task & Purpose
On May 31, 2019, I submitted a FOIA request for records about Cpl Jason Dunham. My request was controlled under file number DON-USMC-2019-007520. Your office initiated a search of the files maintained by the Manpower Management Records & Performance Branch and retrieved Cpl Dunham’s Official Military Personnel File. In USMC4™’s response which I received on June 27, I received enclosed a copy of his Medal of Honor award and citation along with an additional piece of information that he was, he was awarded the Purple Heart, National Defense Service Medal, and the Marine Corps Good Conduct Medal, which do not come with a citation. This request was fully satisfied—thank you.

Privacy Act Request
Mary Schantag

- Task & Purpose
I would like to initiate a new request broader in scope than in the past. I would like furnished to me all portions of Cpl. Dunham4™s military personnel file that would describe his acts of valor, service in the USMC, etc. I am not requesting anything that would be an undue invasion of Cpl. Dunham4™s privacy, such as medical records, disciplinary records or anything of the sort. However, I would like as much from his file as is deemed releasable by your office. For context, I am conducting research to write an academic article on acts of valor by the brave men who have served our country and are recipients of the Medal of Honor, which is the purpose of this request concerning these portions of Cpl. Dunham4™s service record.

Pursuant to the Freedom of Information Act, I'm writing to request a copy of records concerning the investigation into the May 28, 2019, Humvee rollover in Australia that killed Lance Cpl. Hans Sandoval-Pereyra. My request would include, but not be limited to, any investigations, hazard reports, maintenance logs, training logs, and any related endorsement letters, photographs, emails, audio files and videos. If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. I request that all segregable portions of otherwise exempt material be provided.

As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information to explain the causes of this relief and what, if any, actions were taken as a result. This information is sought on behalf of Military.com for dissemination to the general public. Release of the information is in the public interest because a Marine was killed in the accident. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I reserve the right to appeal your decision to withhold information or deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if I have questions regarding this request. After deployment to Iraq, 2003, 1ST DIVISION, 1ST Tank BN, was transported to the United States on the USS Boxer. At this time, it was stated that this mode of transportation was due to possible hazardous exposure(s) while serving in Iraq. I am requesting all (if any) information regarding: (1.) Possible hazardous exposure during 1st Tank BN’s 2003 deployment; (2.) the reasoning behind holding 1st Tank BN in Iraq prior to exfiltration to Kuwait; (3.) the reasoning behind using Ship transportations rather than air transportation.

To whom it may concern,
My name is Ryo Aibara and I am reporter at The Asahi Shimbun, Newspaper Company in Japan(Tokyo). The reason I am writing this e-mail is I would like to seek information, Cmd Chronology of 3MEF(from 1991 to 2018). If it does not have them, could you forward my request to the appropriate section?

Best regards,

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. §§ 552, I request copies of any nominations packets, sometimes referred to as recommendation packages, as well as award citations and/or supporting information for valor awards presented to personnel for actions in the CENTCOM AOR from 2016 to the present.

I specifically request that you include so-called "non-responsive" material per the Court of Appeals for the District of Columbia Circuit in American Immigration Lawyers Association v. EOIR, 830 F.3d 667 (D.C. Cir. 2016) which found that FOIA does not provide for . . . redacting non-exempt information within responsive records. 46(b) As declared by the court, "once an agency identifies a record it deems responsive to a FOIA request, the statute compels disclosure of the responsive record â€œas a unitâ€ except as the agency may redact information falling within a statutory exemption.â€”

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Please notify me by email prior to your incurring any expenses in excess of $.01.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a member of the news media and this information is of timely value, I would appreciate your communicating with me by email, rather than by mail, if you have questions regarding this request.

Please do not close this request, for any reason, unless I explicitly request it in writing.

I look forward to your reply within 20 business days, as the statute requires.

Thank you for your assistance.

DOD-USMC-2017-004151 is being appealed for clear and unmistakable error. Your 15 MAR 17 letter (attached) references my FOIA request being a referral request from NCIS. You provide no further information about that other than mentioning an invalid HTML web address. You must revisit my original request, which is attached in my appeal herein, and consolidated all other past materials and correspondence initiated to perfect and verify the records you have searched for, otherwise, my original request has been violated.

Find, 004151 - Notice of Receipt as the letter reference to above. Moreover, there is nothing relevant to mention what was included in the NCIS referral request, of which, there are corresponding records to validate you searched the parameters of my request and instead searched for an unknown data segment - therefore, you must break down the search criteria what you have exhaustively searched for while conducting my FOIA request.

Alarmingly, there is a substantial communication track on the subject search criteria while indicatively labeling it as NCIS referral - either way, meets any previous record searches from your agency and in this case a "De Novo" review is sought.

Further, I have been more than complete in responding to all of your prior requests. You must elaborate fully the course of this matter has been over two years.

I am an Associated Press reporter based in Maryland. Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request copies any court martial transcripts, military investigative reports and other all available records of internal investigations and disciplinary proceedings related to the following individuals:

1. Marine Sgt. Michael Chesny and Marine Staff Sgt. Joseph Manning, who were stationed at Marine Corps Air Station Cherry Point, North Carolina. Chesny and Manning pleaded guilty in 2017 to trespassing for helping unfurl a white nationalist banner.

2. Former Marine Staff Sgt. Dillon Ulysses Hopper, who was a member of the Marine Corps from July 10, 2006 until January 30, 2017. In 2017, Hopper was the leader of a white nationalist group called Vanguard America. He served at least two combat tours in Iraq and Afghanistan and went on to serve as a Marine recruiter from 2011 to 2014 before leaving the Marines in January 2017.

3. Marine Corps Lance Cpl. Mason Mead, who was assigned to 1st Battalion, 3rd Marines, based out of Kaneohe Bay, Hawaii. Mead reportedly was investigated for posting Nazi propaganda using the Twitter handle @Jacobite_Edward.

4. Erik Sailors, who enlisted in the Marine Corps in 2011 before transitioning to the Individual Ready Reserve (IRR) in 2016. Sailors has led a Texas chapter of Patriot Front, a white-supremacist group. Please provide these documents in electronic format, if possible. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

Mr. Burd's home town is listed as Hightstown New Jersey, however for inclusion on the Mercer County Vietnam Memorial, I need to confirm his actual home address at the time he enlisted. an exact address is needed. I wrote an article about Mr. Burd some years back for a local paper and his missing name from the monument in Mercer County remains as a bit of unfinished business for me.

The personal award recommendation (NAVMC 11533 or other) for the Joint Service Commendation Medal with witness statements and supporting documentation for Corporal Kane Downey, U.S. Marine Corps, for actions on Feb. 17, 2018. He received this award on March 16, 2018. I was informed on 5/21/2019 by a CENTCOM FOIA officer handling a related request, 18-F-1368, that the personal award recommendation that originated this award and was brought up the chain of Cmd was not among the documents he had access to. I was informed that these documents would be with MARCENT.

I also request that, if appropriate, fees be waived as I believe this request is in the public interest. The requested documents will be made available to the general public free of charge on Task & Purpose, processed by a representative of the news media/press and is made in the process of news gathering and not for commercial usage. In the event that fees cannot be waived, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available, or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

<td>This is a request under the Freedom of Information Act or FOIA (5 U.S.C. 552, as amended), KSNW requests a copy of David Lee Madden's service number, dates of service, branch of service, final duty status, final rank, salary, assignments and geographical locations, source of commission, military education level, promotion sequence number, awards and decorations, photograph or photographs, transcript of Courts-Martial Trials, place of entrance and separation. This is a matter of public interest since Madden was the man accused of shooting the Rice County Sheriff and Undersheriff during a traffic stop which lead to a standoff and the ultimate discovery of law enforcement finding his deceased body as well as his father's body. He was also the subject of an ongoing criminal investigation into alleged unlawful possession of a machine gun. Madden was accused of smuggling a fully automatic AK-47 from Iraq into the United States. Per case (No. 6:19-cr-10069-JWB, United States of America, Plaintiff vs. David L. Madden, defendant) Mr. Madden admitted to finding the machinegun in Fallujah, Iraq when he was there fighting for the United States Marine Corps. Mr. Madden admitted to bringing the machinegun back to the United States and to knowing it was a machinegun. If there are any fees for searching or copying these records or duplicating videos, please inform KSN if the cost will exceed $50.00. However, KSN requests a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of issues important to the citizens of Wichita. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Thank you for your consideration of this request. Sincerely, Bret Buganski Anchor/Investigative Reporter.</td>

I am requesting a mission report (MISRREP), drone footage, and any other information for a raid in Afghanistan on August 1st, 2011 in the vicinity of IVO Haidarabad, Afghanistan. The aircraft involved were two MV-22 Ospreys from Marine Medium Tiltrotor Squadron 162 (VMMM-162) home stationed in MCAS New River. Their callsign is "Wombat." The Marines involved were never awarded for their actions that day and I am compiling information to correct that. I have attached an excel with more detailed notes of aircraft side and buno numbers, names and current home towns of aircrew, and adjacent unit callsigns involved in the raid.

Dear FOIA Officer:
Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request copies of any nominations packets, sometimes referred to as recommendation packages, as well as award citations and/or supporting information for valor awards presented to personnel for actions in the AOR from 2016 to the present.

I request that provide any/all of these records in electronic format if possible.

I specifically request that you include so-called "non-responsive" material per the Court of Appeals for the District of Columbia Circuit in American Immigration Lawyers Association v. EOIR, 830 F.3d 667 (D.C. Cir. 2016) which found that FOIA does not provide for . . . redacting non-exempt information within responsive records. As declared by the court, once an agency identifies a record it deems responsive to a FOIA request, the statute compels disclosure of the responsive record . . . i.e., as a unit . . . except insofar as the agency may redact information falling within a statutory exemption.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Please ignore the "willing amount" and notify me by email prior to your incurring any expenses in excess of $ .01.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a member of the news media and this information is of timely value, I would appreciate your communicating with me by email, rather than by mail, if you have questions regarding this request.

Please do not close this request, for any reason, unless I explicitly request it in writing.

Hello. My name is Robin Jordan. I have recently been told that the status in advertisement of his business, posting about it online, is claiming to be a veteran of the USMC, using his information:

His claimed dates of service in the USMC: 1994-2000

I have attached the DD 214 he provided to this request.

Please let me know if there is any other information I can provide to help with the process.

Thank you for your time. I look forward to hearing back from you.

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

Congressman and former 4 tour US Marine Seth Moulton mentioned multiple times in his first campaign for Congress as well as in multiple interviews afterward that he represented the USA in a journalistic effort alongside an Iraqi translator that was published regularly on National T.V. in Iraq. Seth was in some ways one of the most public faces for the USA in Iraq after the invasion of Iraq. One tape for instance he says focused on the rebuilding of the electrical grid. These tapes do not seem to be publicly available. I request all footage taken for the project both published nationally in Iraq as well as unedited and unpublished.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

Zac Champigny

I request an unclassified, unlimited distribution version of the Marine Corps tables of organization and equipment (TOE or TO&E) for the current fiscal year. I am especially interested in the equipment and troop MOCs for a Marine Expeditionary Force and all subordinate units of the Marine Expeditionary Force. Although if nothing else, the equipment tables are what I need most.

There is a website with the information I seek, but as a scholar and not a defense subcontractor, I am not allowed access to the current information. That website is the Total Force Structure Management System for the US Marine Corps with a web address, according to USMC manual (MCRP 1-10.1 The Organization of United States Marine Corps Forces) of:

If a current version of these tables of organization and equipment are unavailable due to security concerns, then I request the most recent tables for a past fiscal year that can be released without compromising security. If certain information in these tables is sensitive then I request redaction of those parts.

I'm not sure which part of USMC is responsible for such reviews and checks but it should be relatively easy for you to establish this. I am especially interested in any internal review and assessment of the film (formal or informal) and any communications with the film-makers about the content/release of their production, but please do not limit the search to only these items. <td>I am a journalist and working as a news reporter of NHK(Japanese Broadcasting Corporation). I would like to have investigation reports like JAGMAN on precautionary landings by US Marine Corp aircraft during this one year. The incidents which I would like to know the details are as follows: 1. precautionary landing by AH1, Iki Island, Okinawa, 2017/10/2 2. precautionary landing by CH53, Kumejima Island, Okinawa, 2017/6/1 3. precautionary landing by MV22 Osprey, Amami Oshima Island, Kagoshima, 2017/6/10 4. precautionary landing by MV22 Osprey, Oita Airport, Oita, 2017/8/29 5. precautionary landing by MV22, Ishigaki Island, Okinawa, 2017/9/29 6. precautionary landing and fire by CH53, Higashi Village, Okinawa, 2017/10/17 7. precautionary landing by UH1, Iki Island, Okinawa, 2018/1/6 8. precautionary landing by AH1, Yomitan Village, Okinawa, 2018/1/8. I am strongly interested in the reason why these incidents have happened because many local people feel anxieties about incidents caused by US military aircraft. I would really appreciate your assistance.</td>

<td>Re: my FOIA Request DON-USMC-2019-005061, you responded: Mrs. Desnoyer -- This is to acknowledge the receipt of your request and to let you know that in order for us to conduct a reasonable search for records, we will need more information. The FOIA is a mechanism for requesting records. Please identify the actual records you are looking for. We will hold your request open until Friday, March 29, 2019. I'm looking for information on a classified operation called "Operation Grasscatcher," that was conducted by elements of the 3rd Marine Air Wing (3rd MAW), Specifically, Marine Air Control Group - 38 (MACG-38), Marine Air Control Squadron 7 (MACS - 7), 2nd Light Anti-Aircraft Missile Battalion (LAAM Bn), and Battery 6coA3coB/3rd LAAM Bn, from 2 January 1972 to 1 August 1972. It was in support of the US Bureau of Customs and Border Patrol drug smuggling operations along the Mexican border. I have the Cmd Chronologies from the Marine Corps units but no after action reports of "Operation Grasscatcher" I would like to find out the details and results of this operation. Thank you kindly for your help and advice.

- Any staff correspondence, power point presentations, academic and non-academic studies, policies, directives, contract documents, reports, internal correspondence or working papers originated by your organization related to adapting Core Competence Theory as a means to optimize DOD's strategy, resourcing decisions, or to optimize performance in other ways. Use of the term might also appear in discussions related to Human Resources Development and would be of interest as would contracting activity demonstrating the use of consultants to provide expertise on core competency development. The timeframe is 1990 to present. In 1990, C.K. Prahalad and Gary Hamel published the Article “The Core Competence of a Corporation” in Harvard Business Review, which articulated how businesses might attain a competitive edge by identifying the core competencies they might need in the future. The 2003 GAO Report “DOD Faces Challenges Implementing its Core Competency Approach and A-76 Competitions” verifies that the Department of Defense, several DOD Agencies, DOD Staff, and the Services took active efforts to adapt the theory.

- Also of interest would be any identification or staff work involved in identifying the Marine Corp's Core Competencies prior to or pursuant to the National Defense Authorization Act of 2008, which directed the DOD to identify and adapt core competencies. These core competencies were published in the Quadrennial Roles and Missions Review of 2009.

- Correspondence with Congress, either directly, or through DOD or Marine Corps Congressional Liaisons pertaining to Core Competency Identification would also be of interest. (Original request attached)

Privacy Act Request

**Privacy Act Request**

To Whom It May Concern:

I am seeking publicly available records regarding the combat death of Lance Cpl. Jason L. Frye, USMC. By way of background, the Department of Defense announced the death of a Marine who was supporting Operation Iraqi Freedom. Lance Cpl. Jason L. Frye, 19, of Lansdowne, Pa., died Oct. 6, 2005 from an improvised explosive device while conducting combat operations against enemy forces near Al Karmah, Iraq. He was assigned to 2nd Battalion, 2nd Marine Regiment, 2nd Marine Division, II Marine Expeditionary Force, Camp Lejeune, N.C.

Specifically, I would request:

- The public announcement by the Department of Defense
- A document reflecting other Marines killed, if any, in the same incident
- A document, if not classified, describing the mission during which he was killed

The purpose of this is for a potential column for my local paper about a memorial wall to service members from my county who were killed in action. I am simply looking for any publicly available details that would help a reader understand the circumstances of his death.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request.

Thank you for your assistance,

Russ Kick

I request a copy of any and all Command climate surveys completed for the calendar year of 2018.

The DDECS is mandated by FY13 National Defense Authorization Act and SECDEF MEMO of 6 MAY 2013, and mandated at the DoD level by the Defense Equal Opportunity Management Institute. For Commands with more than 50 personnel, a DDECS will be conducted within 120 days of assumption of command, and annually thereafter. In addition, Commanders are now required to conduct a close out DDECS within 90 days of relinquishing command. Subordinate Commands of 50 or fewer personnel will be surveyed with a larger unit in the Command to ensure anonymity.

The final FOIA response in this matter should be a Partial Grant/Partial Denial, as the exemptions permit an agency to withhold records only when the public's interest in disclosure is outweighed by an individual's privacy interest. Kimberlin v. Dept. of Justice, 139 F.3d 944, 948 (D.C. Cir. 1998). The public interest at stake is opening "agency action to the light of public scrutiny" so that citizens can "be informed about what their government is up to." Kimberlin v. Reporters Committee for Freedom of the Press, 489 U.S. 749 (1989).

Not an Agency Record
I am filing a FOIA request for all reports/documentation involving a bomb blast report involving an incident on May 19, 2009. A group of US Marines from the 3rd Battalion, 8th Marine Regiment were travelling in a Humvee in Farrah Province, between the Towns of Bakwa and Delaram Afghanistan. The Humvee ran over an IED causing a massive explosion. The occupants were injured and medevac'd to a British field hospital. There they were treated. One Marine was put on Morphine for three days before requesting to go back to his unit. The problem was that he never was treated for a TBI or other injuries he sustained in the blast. The issue if I am hoping to have evidence to show the devastation and hope the VA will review the results of the blast and the cause of internal injuries.

This Marine never received a purple heart which is warranted based on the incident and injuries that he suffers daily from.

In addition to the basic contract and any modifications, ASR is also seeking the original bidders list for the contract, if available. ASR will pay for all duplication costs incurred to produce the desired documentation. However, please notify ASR immediately if the duplication costs will exceed $150.

We are requesting the current issue of the SL-6 database. In the past this database snapshot consisted of several files. The files were labeled: Consistof, Partof, Sect1, Sect3, SL6_1 and SL6_2.

For reference please refer to our last FOIA completed in March of 2016. I've been trying to track down the FOIA # but can't find it in any of the emails Brenda, Beryl and myself exchanged.

The files are small enough that we can take them electronically via email. Also acceptable is our secure ftp server or a posting to the ARMY's SAFE delivery service.

Feel free to call as necessary.

Thanks as always,

Ed

This is a request under the Freedom of Information Act. I hereby request the following records and/or studies that include these keywords:
Pacific Theater Base Structure Overseas in early 1990s. Studies were conducted sometime around 1990–1995. I am requesting this as a representative of the media and so request that all fees be waived because the information will be made available in the public interest. In the case the fees cannot be waived, I would be grateful if you would inform me the total amount of fee in advance of fulfilling my request. I would prefer the request filed electronically by email attachments. CD(DVD)-ROM will be convenient too. Thank you very much for your cooperation in prompt manner. I am looking forward to receiving your early response. Sincerely, Yukiyo Zaha

Any and all Records emailed to or emailed from the Non-Secure Internet Protocol Router (NIPR) email address for Brigadier General William H. Seely III, between May 15, 2018 to May 22, 2018; relating or referring to the following topics or keywords: DLI, defense language institute; Amber; James LaPorta; The Daily Beast.

$exRecords$Includes all documentation or communication preserved in electronic or written form, including but not limited to correspondence, documents, data, transcripts, video and audio recordings, emails, faxes, files, guidance, guidelines, evaluations, instructions, analyses, memoranda, agreements, notes, orders, policies, procedures, protocols, reports, rules, technical manuals, technical specifications, training manuals, studies, and other similar information. Unless otherwise noted, the Request seeks Records created between the period of May 15, 2018, to May 22, 2018.

Requester asks that any Records that exist in electronic form be provided in electronic format via electronic mail or on a compact disc, which can be mailed to the address provided in the Contact section of this FOIA request. If Records cannot be provided in an electronic form or in hard copy, Requester seeks the opportunity to view the Records in the offices of the U.S. Marine Corps.

The final FOIA response in this matter should be a Partial Grant/Partial Denial, as the exemptions permit an agency to withhold records only when the public's interest in disclosure is outbalanced by an individual's privacy interest. Kimberlin v. Dept. of Justice, 139 F.3d 944, 948 (D.C. Cir. 1998). The public interest at stake is opening "agency action to the light of public scrutiny" so that citizens can "be informed about what their government is up to." Dept. of Justice v. Reporters Committee for Freedom of the Press, 489 U.S. 749 (1989).
