Documents necessary to determine if any frequently requested documents falling within the guidelines set forth by the Attorney General on March 15, 2022 (https://www.justice.gov/media/1212566/dl?inline) have already been made available either in the agency's FOIA reading room or in a public location. Documents sufficient to account for any agency policies or memorandums on tracking frequently requested documents that would reasonably fall under the cited guidelines (https://www.justice.gov/media/1212566/dl?inline). I am amicable to a rolling production as records are available. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. The terms pertaining to, referring, relating, or concerning with respect to any given subject means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is in any manner whatsoever pertinent to that subject. Accordingly, without limitation to the foregoing, if any portion of this request is denied for any reason, please provide written notice of the records or portions of records that are being withheld and cite each specific exemption of the Freedom of Information Act on which the agency relies. Moreover, to the extent that responsive records may be withheld in part produce all reasonably segregable portions of those records. Additionally, please provide all responsive documents even if they are redacted in full. This request is primarily and fundamentally for non-commercial purposes. As an investigative columnist and author, my request is in the public interest to inform the public. I would draw your attention to the memorandum, released March 15, 2022 that requires both agencies adhere to proactive disclosures for 'records that have been requested three times or more, or that have become or are likely to become the subject of subsequent requests' as well as to uphold 'timely disclosure of records' (https://www.justice.gov/media/1212566/dl?inline). The requested information is in the public interest because trust in government is at historic lows, and the American people deserve transparency about the operations of the Agency. Agencies, including yours, routinely hide FOIA logs, appeal logs, MDR logs, and critical documents detailing the agency's operations behind the constructs of retention periods even" when requested frequently by multiple parties, and in accordance with the previously cited implementation guidance, should be proactively disclosed. There are multiple MARADMINs describing the convening of other FY09 boards (e.g. Reserve Officers, Limited Duty Officers), but not one for the active-duty officer promotion boards. I have thoroughly searched the usmc.mil website and cannot locate these documents. His name was William F. Gately, Jr. His D.O.B was July 14, 1919 and his death date was October 19, 1981. His service number was 487618. I believe he enlisted in the Marine Corps in 1942. My understanding is that he was wounded on Iwo Jima on March 12, 1945, while serving with the 5th Marine Division, 27th Regiment, weapons company. He did not die from this wound as he ended up retiring from the Marine Corps as a Colonel in 1975. He passed away in 1981 (b)(6) I would be very grateful for any information at all. 2024-USMCFDIA-000852	Jeffrey Scott	FOIA	3/4/2024	This is for Range Training and Management, TECOM. We are requesting any data regarding safe carriage and separation testing validation for the L-39 aircraft. A generic CCAS WdZ was created in 2020 for various contractor aircraft to employ BDU-33 / Mk-76 weapons. The brief given assumed the weapon comes off the aircraft safely. The L-39 was included in the list of CCAS aircraft on this WdZ. PMA-226, the Specialized and Proven Aircraft program office, is in the process of issuing a risk-based flight clearance for the L-39 to drop ordnance based on the fact it has a WdZ. They have not seen any data for safe carriage and separation and only point to the WdZ as their basis. The OEM, Aero Vodochody, stated that they have no data and tha the L-39 was never designed or tested to carry or release western ordnance (or suspension equipment). We have tried to start an L-39 program to do this work, however our test pilots are not comfortable with proceeding without proper test data or proper testing. We are requesting the data or validation that data exists or whatever basis was used to grant the WdZ to the L 39 that showed it has the ability to safely carry and release these weapons to preclude Draken from conducting unnecessary flight test. After lengthy searching the only evidence we have been given is the reference by PMA-226 that it has a WdZ so it must be ok. We believe this may be an instance of a circular reference that they provided a list of aircraft to RTAM who assumed that the program office validated it could safely release the weapons (they do not have that data and can't find any data to show that) and now other people at the program office due to turnover are referencing that WdZ to validate it, which is naturally making our test pilots uncomfortable assuming this is safe. The WdZ brief we received at the Dept of Navy Contract Air Services PMR said that the WdZ assumes safe release. The other aircraft in the generic CCAS WdZ have all been tested for carriage and release of the BDU-33 / Mk-76 except for the L-39 as far as we can tell. In order to save the lengthy testing (and costly) Draken requests the data, if it exists. If it does not exist it should probably be removed from the generic CCAS WdZ until such data / testing is completed.	Full Denial - Not an agency record

2024-USMCFIOA-000852	Jeffrey Scott	FOIA	3/4/2024	This is for Range Training and Management, TECOM. We are requesting any data regarding safe carriage and separation testing validation for the L-39 aircraft. A generic CCAS WDC was created in 2020 for various contractor aircraft to employ BDU-33 / Mk-76 weapons. The brief given assumed the weapon comes off the aircraft safely. The L-39 was included in the list of CCAS aircraft on this WDC. PMA-226, the Specialized and Proven Aircraft program office, is in the process of issuing a risk-based flight clearance for the L-39 to drop ordnance based on the fact it has a WDC. They have not seen any data for safe carriage and separation and only point to the WDC as their basis. The OEM, Aero Vodochody, stated that they have no data and that the L-39 was never designed or tested to carry or release western ordnance (or suspension equipment). We have tried to start an L-39 program to do this work, however our test pilots are not comfortable with proceeding without proper test data or proper testing. We are requesting the data or validation that data exists or whatever basis was used to grant the WDC to the L-39 that showed it has the ability to safely carry and release these weapons to preclude Draken from conducting unnecessary flight test. After lengthy searching the only evidence we have been given is the reference by PMA-226 that it has a WDC so it must be ok. We believe this may be an instance of a circular reference that they provided a list of aircraft to RTAM who assumed that the program office validated it could safely release the weapons (they do not have that data and can't find any data to show that) and now other people at the program office due to turnover are referencing that WDC to validate it, which is naturally making our test pilots uncomfortable assuming this is safe. The WDC brief we received at the Dept of Navy Contract Air Services PMR said that the WDC assumes safe release. The other aircraft in the generic CCAS WDC have all been tested for carriage and release of the BDU-33 / Mk-76 except for the L-39 as far as we can tell. In order to save the lengthy testing (and costly) Draken requests the data, if it exists. If it does not exist it should probably be removed from the generic CCAS WDC until such data / testing is completed.	Full Denial - Not an agency record

2024-USMCFIOIA-002821	Bethany Russell	FOIA	6/18/2024	I am researching how the Marine Corps implemented the December 2015 directive from Secretary Ash Carter to fully integrate women into the Armed Forces. In particular, I am interested in how the Marine Corps tracked its implementation plan, assessed how successful implementation was, and adjusted its implementation efforts from 2016-2023. I would like to receive: 1. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN tasked the Commander, MARFORCOM with ensuring that female Marine leadership is in place prior to the introduction of junior enlisted female Marines to ground combat arms units and to coordinate the distribution of female Marines with DC, M&RA. I would like to receive any planning or implementation documents from MARFORCOM or M&RA that display the distribution of female Marines in ground combat arms units from 2016-2023. I would also like to receive the timelines of when female officers or senior NCOs arrived to each of these units and when female junior enlisted soldiers arrived to the newly integrated units from 2016-2023. 2. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN tasked the Deputy Commandant for Manpower and Reserve Affairs (DC, M&RA) as the office of primary responsibility for the assessment of the implementation plan. I would like to receive any products the M&RA office produced tracking implementation and assessment of gender integration from 2016-2023. 3. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN also tasked the Deputy Commandant for Manpower and Reserve Affairs (DC, M&RA) to collect, integrate, and analyze feedback from supporting DC/Commanders associated with the progress and success of gender integration, as well as proposing policy adjustments as required. I would like to receive any products provided by DC/Commanders to DC, M&RA that provide assessments or feedback on the status of gender integration from 2016-2023. 4. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN tasked the Deputy Commandant for Manpower and Reserve Affairs (DC, M&RA) to develop a system to bridge data captured in various Marine Corps systems and databases in order to facilitate operational analysis of the progress and success of the gender integration implementation plan. I would like to receive the timeline of when the system went into place and an overview of the system capabilities. 5. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN tasked the Deputy Commandant for Manpower and Reserve Affairs (DC, M&RA) to provide quarterly updates to the senior leadership during each Executive Off-Site (EOS). I would like to receive copies or transcripts of those quarterly updates from 2016-2023, or any notes produced during these Executive Off-Sites regarding gender integration. 6. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN noted that the Center for Naval Analyses (CNA), RAND Corporation would provide analytical support in the assessment of the implementation plan. I would like to receive any assessments provided by CNA, RAND, or any other third-party researcher commissioned by the Marine Corps from 2016-2023 that provided analysis of the Marine gender integration implementation. 7. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN tasked the Deputy Commandant for Plans, Policies, and Operations (DC, PP&O) with monitoring integration progress for the occupational fields you sponsor and units for which you advocate in order to recommend in-stride modifications across doctrine, organization, training, materiel, leadership and education, personnel, and facilities with cost awareness. I would like to receive any reports produced by the PP&O office from 2016-2023 answering this requirement that track integration progress and recommend any modifications to doctrine, organization, training, materiel, education, personnel, or facilities in line with gender integration. 8. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN tasked the Deputy Commandant for Plans, Policies, and Operations (DC, PP&O) to recommend units for initial gender integration in support of implementation. I would like the recommendations for the initial units for gender integration and the timeline of when the Marine Corps planned to integrate each of its units. 9. Fragmentary Order 4 (Implementation) to MARINE CORPS FORCE INTEGRATION CAMPAIGN PLAN tasked the Commanding General, Marine Corps Combat Development Center with revalidating and updating gender-neutral physical screening and standards for ground combat arms MOSs, as well as physical assignment criteria for non-ground combat arms MOS Marines to load-bearing ground

2024-USMCFIOA-003618	Eddie Asano	FOIA	8/5/2024	(b)(6) within the Marine Corps: a significant number of service members enrolled in the Blended Retirement System (BRS) are contributing below the 5% match threshold towards their Thrift Savings Plan (TSP). This means they might not be maximizing their benefits. Given that the BRS was established to support service members who may not reach the 20-year service mark, it's imperative that all eligible individuals are well-informed, outside of whatAs provided on MarineNet, about its advantages. Recognizing this, I requested data on the number of Marines not meeting the 5% contribution threshold while enrolled in the BRS. Unfortunately, obtaining this information proved challenging. Despite reaching out to (b)(6) at Headquarters U.S. Marine Corps responsible for BRS-related matters, I was told to do the following: I nor HQMC is authorized to provide the requested information. This information can be obtained by submitting a Freedom of Information Act (FOIA) request to https://www.hqmc.marines.mil/Agencies/USMC-FOIA/ . Upon discovering that less than 5% of our service members enrolled in the BRS were contributing adequately, my organized comprehensive training sessions with a financial specialist on Camp Pendleton. As a result, nearly all Marines within our unit are now contributing to their TSP as per BRS guidelines. Moving forward, it's evident that a broader solution is needed. If a significant fraction of service members across the Marine Corps are not maximizing their BRS benefits, it underscores the necessity for annual mandatory BRS training within the Department of Defense. This ensures that all eligible personnel are equipped with the knowledge to secure their financial future effectively. My name is Eddie Asano (b)(6) I am not willing to pay for the information. 2024-USMCFIOA-004123	Jessi Beyer	FOIA	9/3/2024	My name is Jessi Beyer, (b)(6) Earlier this year, I worked with (b)(6) on a request for Marines suicide data over the past 10 years, which was graciously provided so I can complete my research on suicide rates by Marines unit. The data was broken down into five segments: I Marine Expeditionary Force, II Marine Expeditionary Force, Marine Forces Reserve, Training and Education Command, and Other, meaning all other Marines that do not fit into one of the other categories. While comparing raw suicide numbers across those five groups is interesting and was statistically significant, it is not as valid and meaningful as comparing suicide rates across those groups. In order to complete my research and analyze suicide rates as opposed to raw numbers, I am requesting the total number of Marines in each of the five groups listed above (for example, 100,000 total Marines in I MEF, 75,000 total Marines in II MEF, etc).
