2024-000060	Colin Aamot	FOIA	10/22/2023	<p>I respectfully request the following: Documents sufficient to account for all lists, trackers, or summaries of: records or documents that have been requested three times or more under FOIA, or that have become or are likely to become the subject of subsequent request, in line with guidelines issued by the Attorney General on 15 March, 2022 (https://www.justice.gov/media/1212566/dl?inline). Documents necessary to determine if any frequently requested documents falling within the guidelines set forth by the Attorney General on March 15, 2022 (https://www.justice.gov/media/1212566/dl?inline) have already been made available either in the agency's FOIA reading room or in a public location. Documents sufficient to account for any agency policies or memorandums on tracking frequently requested documents that would reasonably fall under the cited guidelines (https://www.justice.gov/media/1212566/dl?inline). I am amicable to a rolling production as records are available. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. The terms "pertaining to," "referring," "relating," or "concerning" with respect to any given subject means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is in any manner whatsoever pertinent to that subject. The term "record" means any written, recorded, or graphic matter of any nature whatsoever, regardless of how recorded, and whether original or copy, including, but not limited to, the following: memoranda, reports, expense reports, books, manuals, instructions, financial reports, working papers, records, notes, letters, notices, confirmations, telegrams, receipts, appraisals, pamphlets, magazines, newspapers, prospectuses, inter-office and intra-office communications, electronic mail (emails), MMS or SMS text messages, instant messages, messaging systems (such as iMessage, Microsoft Teams, WhatsApp, Telegram, Signal, Google Chat, Twitter direct messages, Lync, Slack, and Facebook Messenger), contracts, cables, telexes, notations of any type of conversation, telephone call, voicemail, meeting or other communication. Please comply fully with 5 U.S.C. § 552(b). Accordingly, without limitation to the foregoing, if any portion of this request is denied for any reason, please provide written notice of the records or portions of records that are being withheld and cite each specific exemption of the Freedom of Information Act on which the agency relies. Moreover, to the extent that responsive records may be withheld in part produce all reasonably segregable portions of those records. Additionally, please provide all responsive documents even if they are redacted in full. This request is primarily and fundamentally for non-commercial purposes. As an investigative columnist and author, my request is in the public interest to inform the public. I would draw your attention to the memorandum, released March 15, 2022 that requires both agencies adhere to proactive disclosures for 'records that have been requested three times or more, or that have become or are likely to become the subject of subsequent requests' as well as to uphold 'timely disclosure of records' (https://www.justice.gov/media/1212566/dl?inline). The requested information is in the public interest because trust in government is at historic lows, and the American people deserve transparency about the operations of the Agency. Agencies, including yours, routinely hide FOIA logs, appeal logs, MDR logs, and critical documents detailing the agency's operations behind the constructs of retention periods even— when requested frequently by multiple parties, and in accordance with the previously cited implementation guidance, should be proactively disclosed.</p>	Records not reasonably described

2024-000136	Robert Carlborg	FOIA	11/21/2023	I am requesting a copy of MARADMINs 187/07 "FY09 U.S. Marine Corps Officer Promotion Selection Boards" and 438/07 "Change One to MARADMIN 187/07 FY09 U.S. Marine Corps Officer Promotion Selection Boards." I am also requesting a copy of the MARADMIN published that details the convening of the FY09 Colonel, Lieutenant Colonel, Major, and Captain promotion boards (or similar wording) which would reference one or both of the above MARADMINs. I do not have the MARADMIN # for this document. There are multiple MARADMINs describing the convening of other FY09 boards (e.g. Reserve Officers, Limited Duty Officers), but not one for the active-duty officer promotion boards. I have thoroughly searched the usmc.mil website and cannot locate these documents. There appears to be many gaps in the published MARADMINs during this period. 187/07 is not found, 438/07 is published but corrupted.	Partial Denial

2024-USMCFIOA-000852	<p>This is for Range Training and Management, TECOM. We are requesting any data regarding safe carriage and separation testing validation for the L-39 aircraft. A generic CCAS WDC was created in 2020 for various contractor aircraft to employ BDU-33 / Mk-76 weapons. The brief given assumed the weapon comes off the aircraft safely. The L-39 was included in the list of CCAS aircraft on this WDC. PMA-226, the Specialized and Proven Aircraft program office, is in the process of issuing a risk-based flight clearance for the L-39 to drop ordnance based on the fact it has a WDC. They have not seen any data for safe carriage and separation and only point to the WDC as their basis. The OEM, Aero Vodochody, stated that they have no data and that the L-39 was never designed or tested to carry or release western ordnance (or suspension equipment). We have tried to start an L-39 program to do this work, however our test pilots are not comfortable with proceeding without proper test data or proper testing. We are requesting the data or validation that data exists or whatever basis was used to grant the WDC to the L-39 that showed it has the ability to safely carry and release these weapons to preclude Draken from conducting unnecessary flight test. After lengthy searching the only evidence we have been given is the reference by PMA-226 that it has a WDC so it must be ok. We believe this may be an instance of a circular reference that they provided a list of aircraft to RTAM who assumed that the program office validated it could safely release the weapons (they do not have that data and can't find any data to show that) and now other people at the program office due to turnover are referencing that WDC to validate it, which is naturally making our test pilots uncomfortable assuming this is safe. The WDC brief we received at the Dept of Navy Contract Air Services PMR said that the WDC assumes safe release. The other aircraft in the generic CCAS WDC have all been tested for carriage and release of the BDU-33 / Mk-76 except for the L-39 as far as we can tell. In order to save the lengthy testing (and costly) Draken requests the data, if it exists. If it does not exist it should probably be removed from the generic CCAS WDC until such data / testing is completed.</p>	Jeffrey Scott	3/4/2024	Full Denial - Not an agency record

RE: FREEDOM OF INFORMATION ACT REQUEST

BACKGROUND:

Dear FOIA Officer:

This letter constitutes a request under the federal Freedom of Information Act (FOIA), 5 U.S.C. Â§ 552. The U.S. Supreme Court ruling in Students for Fair Admissions vs. President and Fellows of Harvard College prohibits public and private universities from engaging in affirmative action. The Court also declined to address whether military academies may use race in admissions and stated that academies are "potentially distinct interests" from other kinds of educational institutions.

The information obtained is necessary to determine the extent of communication surrounding the possibility of the continuation of the use of affirmative action at military service academies throughout the country.

RECORDS REQUEST:

To advance the public interest, the Center to Advance Security in America (CASA) requests the following documents:

1.All meeting requests, calendar entries, virtual meeting invitations, call logs and any chats in the relevant virtual platforms (e.g., Microsoft Teams, Zoom, Webex, etc.) pertaining to "Students for Fair Admissions vs. President and Fellows of Harvard College" or "SFFA v. Harvard".

2.We are seeking records on this topic exchanged between and among the relevant following officials:

•Eric M. Smith

•General Christopher J. Mahoney

•Carlos A. Ruiz

In 2015, the USMC ran a study on the effectiveness of all-male squads compared to gender-integrated squads. The media have well covered the study's summary. That being said, the full research has never been released, and many important details are left to one's imagination. Below are the summary files, if it's unclear as to what I am referring to.
