Face Mask Usage on Joint Base Myer Henderson Hall

As of March 1, 2022

Joint Base Myer-Henderson Hall has transitioned to Health Protection Condition Bravo.

Effective Mar. 1, 2022, JBM-HH rescinds its Aug. 2, 2021 policy requiring face coverings indoors. When the CDC COVID-19 Community Level is low in the county where a DoD installation or facility is located, indoor mask-wearing is not required for DoD personnel or visitors. As of Mar. 1, 2022, both the District of Columbia and Arlington County have been designated "low" by the CDC.

Individuals may choose to still wear a mask regardless of the CDC COVID-19 Community Level. Regardless of the CDC COVID-19 Community Level, DoD force health protection guidance for workplace access and mask wearing for DoD personnel with symptoms, a positive test, or exposure to someone with COVID-19 remains in effect. All other force health protection guidance remains in effect, including guidance regarding workplace access, occupancy levels, physical distancing, travel, and meetings. Individual must follow more rigorous workplace mask mandates when commanders and supervisors determine that it is required to protect health and safety in the workplace, such as mask wearing by health care workers. Accordingly, the mask policy for Rader Health Clinic and the Cody Child Development Center has not changed – all personnel and visitors, regardless of vaccination status, are still required to wear a mask indoors at these facilities until further notice.

Fourth of July / Independence Day

Independence Day

ALMAR: 018/22

This year, we celebrate 246 years since the signing of that Declaration. Though our national history is far from perfect, those early days of the fight for independence provided us with a strong foundation that calls for the extending of freedom to all people equally.

In his 1951 speech before the English-Speaking Union Dinner in London, President Dwight D. Eisenhower, then Supreme Allied Commander Europe, made his famous statement: “Freedom has its life in the hearts, the actions, the spirit of men and so it must be daily earned and refreshed – else like a flower cut from its life-giving roots, it will wither and die.” Eisenhower delivered those remarks the day before Independence Day, on the heels of the second World War and in the midst of the Korean Conflict. He, along with that entire generation, knew all too well what it takes to preserve the principles of liberty, equality, and justice laid out in the Declaration of Independence. For nearly a quarter of a millennium, Americans have enjoyed a unique level of freedom. As Marines, we know maintaining that freedom comes at a price. Whether serving in uniform or not, President Eisenhower’s statement reminds us that it is incumbent upon all Americans to protect those freedoms and ideals in whatever way we can – so that together we can ensure our great experiment continues to succeed.

Independence Day offers us a time to reflect on what it means to serve and what role we can play in ensuring the vision for liberty and equality issued on 4 July 1776 continues to guide our Nation. As Marines, we take great pride in our heritage as our Nation’s expeditionary force-in-readiness, and we remain vigilant and ready to defend our freedoms when the Nation calls.

I hope this holiday will offer each of you an opportunity to gather safely with family and friends. Continue to be on guard to the health hazards we face and follow established guidelines throughout this holiday period. Above all, look out for each other and make sure everyone returns safe and ready to work.

To all Marines, Sailors, and families, I wish you a happy 4th of July.

Semper Fidelis, David H. Berger, General, U.S. Marine Corps, Commandant of the Marine Corps

CONAD Advisory: 002-22 Clarification to Transition PTAD

Audience: Headquarters and Service Battalion, Headquarters Marine Corps, Henderson Hall (RUC 54008)

Summary: In an effort to reduce the number of erroneously reported PTAD instances for the command, the following information is provided. Care and special attention need to be used in selecting the type of PTAD when selecting or approving requests in MOL. PTAD type: **Transitional (house Hunting, Job Hunting, etc)**  Permissive Temporary Additional Duty (PTAD) may be authorized for Marines being separated from active duty if discharged under honorable or general (under honorable conditions). Reserve Component Marines are not authorized transition PTAD unless in an active duty status and approved for an active duty retirement. Please NOTE this type of PTAD is not authorized for PCS and can only be present once per career for a total of up to 20 days CONUS Retirements or up to 30 days for OCONUS retirements.

**PTAD type: PCS (house Hunting)**  Permissive Temporary Additional Duty (PTAD) may be authorized for travel to new permanent duty station area for the purpose of house hunting for up to 10 days. Marines issued PCS orders to any location where Government quarters will not be available, Marines authorized to occupy non-Government quarters at their new permanent duty stations, or Marines scheduled for restrictive tours who wish to move their family members to a designated place are eligible to request PTAD. Marines separating or retiring are not eligible for PTAD for house hunting, but may be eligible for Transitional PTAD. Note this is the type that should be selected for Marines executing PCS.

For more information about the outbound process including PCS/PCA and Seps/Retirements please visit:

Patriot Express Pet Owners

Patriot Express Pet Owners,

This is an alert message. You need to know my Team and I take the responsibility of moving your pet seriously. As a pet owner with five overseas tours, I'm intimately aware of the risk, expense, and extreme concern when it comes to these important members of our families.

We've had three pet fatalities on Patriot Express flights in the last two weeks, which is unacceptable. AMC is reviewing every aspect of Patriot Express pet travel, including equities beyond our responsibility, to further strengthen pet safety. We will hold ourselves accountable to a high standard and will positively influence every service agency involved in the pet movement enterprise.

We've made immediate improvements such as increasing owners' access to pets during layovers, comfort breaks, allowing pets in climate-controlled terminals, and cooling the cargo holds during loading and unloading. We will continue to implement further improvements as the review process matures.

It is extremely important that pet owners understand the following when planning air travel for pets, especially dogs. Besides the heat and stress of air travel, there have been commonalities amongst some of the recent fatalities that you need to be aware of now. Pet health, age, breed, and sedation appear to be contributing factors.

Your veterinarian is the expert on these factors and must also consider length of travel, number of layovers, number of transfers, and enroute climate conditions when approving and advising your pet travel. It is imperative you understand that the process we are improving cannot completely mitigate risks associated with certain health, breed, and sedation challenges. If you are unsure about the risk, please show your veterinarian this alert message and clarify with detail the specifics of your travel. Consider delaying your pet travel until you and your veterinarian are comfortable.

The easy thing to do during these challenging times is to immediately align AMC pet travel policies with airline industry standards, which would severely restrict, and in substantial numbers, eliminate travel for specific breeds, health conditions, and climate environments. Doing so would leave thousands of military pet owners with expensive and limited-to-no travel options. I intend to partner with the transportation enterprise, the community I serve, and my team to work through this responsibly to ensure happy arrivals at PCS destinations.

You can contact me directly with suggestions and concerns at PatriotPets@us.af.mil.

NEW ** Veteran Crisis Line

New number, same 24/7 crisis support

Share the new Veterans Crisis Line number with those you served with so they’re prepared in case of a crisis—Dial 988 then Press 1.

If you’re a Veteran having thoughts of suicide or concerned about one, reach 24/7 crisis support through the new Veterans Crisis Line (VCL) number: Dial 988, then Press 1.

This shorter, three-digit number provides an easier-to-remember way to access the VCL. We’re working to make sure all Veterans and their supporters know about the new number. Below are answers to some questions you might have about this change.

Why did the VCL get a new number?

The change is a result of the National Suicide Hotline Designation Act. The law authorized 988 as the new three-digit number for the National Suicide Prevention Lifeline (Lifeline). Under the law, all telephone service providers in the U.S. had to activate the number by July 16, 2022.

Because VA administers the VCL through the Lifeline’s national network, the service was affected by this transition.

Volunteer Opportunities

Honor Flight Savannah will be returning to D.C. Henderson Hall is seeking volunteers to greet these World War II, Korean War, and Vietnam War veterans as they arrive at the WWII Memorial on the National Mall. The welcome ceremony will begin at 0900 on Saturday, 1 October 2022. UOD will be Dress Blue Bravo. Marine volunteers will greet the veterans, observe a short ceremony, and then have time to mingle with the veterans. Henderson Hall will provide a shuttle to and from the National Mall for those interested.

For more information, and to sign up to attend, please contact the Henderson Hall Assistant Operations Chief, SSgt Andrew Smalley at andrew.smalley@usmc.mil or 703-614-1765.
